PRODUCT INFORMATION CERTIFICATE

1. COMMODITY

Cereal Straw Products

Australian Origin

Covered Products:

- Wheat Straw
- Barley Straw
- Oaten Straw
- Rice Straw
- Triticale Straw

2. COMPOSITION

High-quality cereal straw products sourced from premium Australian cropping regions. These straw products are generated from carefully harvested cereal crops and processed to maintain consistency, cleanliness, and suitability for livestock feeding, bedding, and agricultural applications.

The products provide reliable fibre content and are suitable for a range of feed ration and livestock management programs.

3. APPEARANCE

Trade as sample, or low specifications negotiated and agreed between buyer and seller.

Products are generally presented as clean, dry, well-cured straw with natural colour variation according to crop type and seasonal conditions.

4. SPECIFICATIONS

Trade as sample, or specifications negotiated and agreed between buyer and seller.

Typical quality parameters may include:

- Moisture content
- Fibre quality
- Foreign material
- Bale density
- Colour and aroma
- Dust content
- Mould-free condition

Final specifications subject to seasonal conditions, crop type, and export contract requirements.

5. PACKING

Site 1 (Pyrenees)

1. Big bale approximately 430kgs per bale, loading approximately 25MT per 40ft HQ container.
2. Small bale approximately 27kgs per bale, loading approximately 24MT per 40ft HQ container.

Site 2 (Riverina)

1. Big bale approximately 330kgs per bale, loading approximately 25MT per 40ft HQ container.
2. Small bale approximately 27kgs per bale, loading approximately 24MT per 40ft HQ container.

Packing and loading specifications may vary depending on product type and customer requirements.

6. INTENDED USE

Suitable for:

- Livestock feed rations
- Animal bedding applications
- Dairy and feedlot operations
- Mushroom compost production
- Agricultural and horticultural applications

All products are supplied in accordance with applicable Australian export and quarantine standards.

QUALITY & QUARANTINE ASSURANCE

All cereal straw exports are handled under strict Australian quality control and phytosanitary systems. Products are processed, stored, and loaded using integrated supply chain procedures to ensure product consistency, traceability, and export compliance for international customers.
