## PRODUCT INFORMATION CERTIFICATE

### 1. COMMODITY

Grain & Oilseed Commodities

Australian Origin

Covered Products:

- Wheat
  - Barley
  - Sorghum
  - Maize (Corn)
  - Canola Seed
  - Soybean Seed
  - Sunflower Seed
- 

### 2. COMPOSITION

High-quality Australian grain and oilseed commodities sourced from premium farming regions across Australia. These products are cultivated using advanced agricultural practices and are suitable for food, feed, and industrial applications.

The commodities provide reliable nutritional value, consistent quality, and excellent processing characteristics to meet international market requirements.

---

### 3. APPEARANCE

Trade as sample, or low specifications negotiated and agreed between buyer and seller.

Products are typically presented as clean, sound, and well-conditioned grain or oilseed material, free from abnormal odours and excessive foreign matter.

---

## **4. SPECIFICATIONS**

Trade as sample, or specifications negotiated and agreed between buyer and seller.

Typical quality parameters may include:

- Moisture content
- Test weight
- Protein level
- Foreign material
- Damaged grain percentage
- Oil content (for oilseeds)
- Grain size and uniformity

Final specifications subject to crop season, commodity type, and export contract requirements.

---

## **5. PACKING**

Bulk Export Loading

1. Bulk vessel shipments available for large volume export programs.
2. Containerised loading available in 20ft and 40ft containers.

Approximate loading capacities:

- 20ft container: approx. 24–25 MT
- 40ft HQ container: subject to commodity density and destination regulations

Packing formats and loading specifications can be customised to customer requirements.

---

## **6. INTENDED USE**

Suitable for:

- Human consumption
- Animal feed and feed manufacturing
- Flour milling and food processing
- Vegetable oil crushing and refining
- Industrial processing applications

All products are supplied in accordance with applicable Australian export and quarantine standards.

---

## **QUALITY & QUARANTINE ASSURANCE**

All grain and oilseed exports are monitored under strict Australian quality grading and phytosanitary systems. Products are handled through integrated supply chains with full traceability and quality assurance procedures to ensure safe, compliant, and reliable delivery to international customers.
